Keystone Accreditations

EU Ecolabel products use
sustainable ingredients and avoid
hazardous, toxic or otherwise
harmful substances. Successful
applicants also prove they use
minimal, recycled and/or easily
to recycle packaging.

Based on life cycle assessment
with an overall goal to reduce
the environmental impact from
production and consumption of
goods, The **Nordic Swan Ecolabel**
drives sustainable development.

* Selected products within the Keystone range carry the accreditations

Consistency

Tools & training to minimize the impact of staff turnover and enhance employee productivity & operational compliance.
