Next-Level Water Performance.

# Premium Cooling Water Program

**Productivity is vital. Prevent problems before they start.**

The Premium Cooling Water Program from Nalco Water helps optimize your water performance and your assets with next-level analytics, technology and chemistry.

**Nalco Water expertise and the industry's most advanced technology work together to support your key business drivers**

#### OPERATIONAL EFFICIENCY

Our program helps your system save money, optimize production, reduce waste and use labor more efficiently.

#### SYSTEM ASSURANCE

Our team of highly trained experts provides 24/7/365 oversight to help detect risks before they become issues.

#### WATER/ENERGY SAVINGS

By controlling scale and microbiological deposit risks that hinder heat transfer, energy demand is reduced.

#### ASSET MANAGEMENT

Help protect asset health and operate more reliably by implementing corrective actions to help mitigate potential problems.

► PREDICTIVE ANALYTICS & DIAGNOSTICS

### A more comprehensive view of your water systems and asset health

OMNI™, powered by ECOLAB3D™, provides you with the actionable insights into asset performance issues, including predicting scaling and microbial fouling before it occurs; helping to maximize output, minimize costs and maintain asset reliability.

► PROACTIVE DEPOSIT DETECTION

### 3D TRASAR™ TECHNOLOGY FOR COOLING WATER PREMIUM PLUS

### First-of-its-kind and fully integrated advanced sensing technology provides early indication and identification of scaling and biofilm deposits

Powered by ECOLAB3D™, Premium Plus provides predictive, accurate performance data round the clock from all of your sites, with early detection of deposition and actionable insights to proactively address problems before they start.

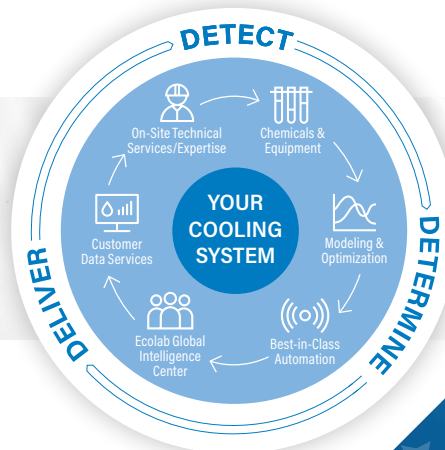

► PREMIUM CHEMISTRY

### Created specifically for your water conditions and to help minimize your environmental impact

Nalco Water can customize a cooling water program for you that delivers equivalent or better scale, corrosion and fouling performance at a comparable price to traditional technology while eliminating or significantly reducing the concentrations of substances of concern to you.

Use water more intelligently throughout your operations. Learn how the Premium Cooling Water Program can help you achieve next-level performance.
