

DATA-DRIVEN INSIGHTS & SERVICE FOR INTELLIGENT PEST ELIMINATION

Rodents can cause costly operational and food safety risks.

Gain visibility and greater control with a smart-device programme that pinpoints rodent activity, pressure points and risk areas.

ruin raw materials

damage structures & equipment

contaminate finished products

The INTELLIGENT RODENT MONITORING SYSTEM Featuring Pest Insights Map Powered by **ECOLAB3D™** is a next-level approach to achieving pest-free environments. Tailored to your facility's unique needs, it enables **PROACTIVE & PRESCRIPTIVE SERVICE** for your facility.

VISUAL INSIGHTS

- Data points are consolidated into highly visual, actionable insights
- Device activity, status and service detail documented for proof of regulatory compliance

SMART, CONNECTED EQUIPMENT

- Sensor data is transferred to Ecolab's secure cloud
- Monitoring includes hard-to-access areas

ONSITE & DATA ANALYTIC EXPERTISE

- Ecolab Intelligence Centre skillfully monitors and delivers insights
- Your Ecolab Service Specialist is equipped with data-driven insights to determine root-cause and target high-risk areas

WE ARE COMMITTED TO A HIGHER STANDARD

Intelligent Rodent Monitoring System

PEST INSIGHTS MAP POWERED BY ECOLAB3D™ VISUALISES DATA

- Gives clear visibility of pest activity, trends & service
- Pinpoints exact location of equipment - interior & exterior
- Pinpoints exact location of Interior equipment

- Understand key trends and patterns with trending data of your intelligent Rodent Monitoring Equipment
- Shows pest activity recorded by date
- Filter by date parameters, pest type, monitor type, location and visit type to show on map
- Shares powerful trend analysis from connected rodent devices

Ecolab Intelligence Centre

The Ecolab Intelligence Centre extends the power of your Ecolab Service Specialist by partnering together to give you confident protection.

- Delivers alerts and insights daily that enable proactive and prescriptive service
- Provides a consistent approach to data and analysis across your locations
- System health monitored 24/7/365 by skilled team of experts
